It was duly moved and seconded THAT the proposed lease agreement with Alkan Air Ltd. for a float plane base on Schwatka Lake be sent back to Administration for further review.

ALKAN AIR LEASE AGREEMENT

Carried Unanimously

Council members noted that the significant increase in the lease price would be difficult for a company to accommodate, but acknowledged that the lease terms are in accordance with the provisions of existing policy. Administration was encouraged to examine the current policy to see if there are any options available to allow for a seasonal rate or other alternative to a market value lease.

Discussion

**2022-04-06**

It was duly moved and seconded THAT Administration is authorized to commence the procurement of planning services for project number 720c00220, Tank Farm Master Plan.

Discussion

In response to questions raised, Administration confirmed that the gravel resources on the site would be considered during the planning process.

**Development Services Committee**

**2022-04-07**

It was duly moved and seconded THAT Administration is directed to proceed with the development of a Housing and Land Development Advisory Committee.

HOUSING AND LAND DEVELOPMENT ADVISORY COMMITTEE

Carried Unanimously

Council members encouraged the formation of a committee with an uneven number of members in order to avoid the possible issue of tied votes, and also encouraged the recruitment of members with a broad base of interests in housing and land development issues.

Discussion

**City Operations Committee**

Doug Gonder of Norcope Enterprises advised the Committee that the City is facing a shortage of gravel for the upcoming construction season. He noted that this could significantly impact the budgets on current projects, including residential building, as a particular quality of gravel is required for concrete.

Mr. Gonder stated that he has been looking for a new gravel source since 2010, but the Official Community Plan review has impacted quarry extraction. He urged Council to stop delaying the approval of new quarry leases via the Official Community Plan process.

GRAVEL SHORTAGE  
For Information Only

A Committee member noted that there should be caution about assuming widespread concern based on one perspective. Another member noted that a number of contractors have expressed concern about the availability of gravel, and have stated that costs will be driven up if gravel has to be sourced from greater distances.

Administration confirmed that City approvals are in place for identified quarry sites within City limits, but it is up to the landowners to release the land for quarry use.

**Community Services Committee**

**2022-04-08**

It was duly moved and seconded  
THAT Administration is hereby directed to explore options to improve accessibility at Grey Mountain Cemetery.

MOUNTAIN CEMETERY

Carried Unanimously

Council members noted that this exercise would be the first step in the exploration and expansion of accessibility throughout the City. The Interim City Manager noted that enhanced service comes with a cost, and advised that the projected costs will be provided when options for increased accessibility are brought forward.

Discussion

A Committee member acknowledged February 21<sup>st</sup> as International Mother Language Day and noted that Wednesday, February 23<sup>rd</sup> is National Anti-Bullying Day. Citizens were encouraged to wear pink on Wednesday to show support for a campaign to “Be a Buddy, Not a Bully”.

COMMUNITY EVENTS

**Public Health and Safety Committee**

A Committee member advised that a number of Council members met with Blood Ties to continue the conversation about what Council can do to provide support in response to the Opioid Health Crisis. It was suggested that the donation of bus passes and advertising space on buses may be specific ways to support this organization.

In response to questions raised, Administration advised that other levels of government already supply free bus passes to those who need them. It was also noted that the City is developing materials such as posters to put in public spaces, and is using its communications platforms to raise awareness and increase education about opioid use and available supports.

Committee members discussed the donation of bus passes and other support, and determined that a broader level of discussion is needed before additional specific commitments for support can be made.

Your Worship, the Development Services Committee respectfully submits the following report:

### **1. Pop-Up Patio Program – Fees and Charges Bylaw Amendment**

The “Pop-up Patio Program” was developed in 2021 for restaurants in the downtown core. An multi-department administrative committee was formed to conduct a review of the program and make recommendations on improvements based on feedback from applicants and proponents. Eight downtown restaurant businesses were consulted.

Review topics included the application process, applicable fees, construction costs, vendor staffing, public safety, weather impacts, and the program area being confined to Downtown. The existing policy criteria and applicable bylaw regulations were also reviewed. It was found that a significant financial barrier to the pop-up patio initiative may be the cumulative costs of bagged parking meter fees. Administration is recommending that the bagged parking meter fee for pop-up patio applications be reduced to zero for the 2022 season. This reduced fee would expire at the end of year and be re-assessed for the 2023 season. An amendment to the Fees and Charges Bylaw is required to reduce the bagged meter fees for this purpose.

**The recommendation of the Development Services Committee is**

THAT Bylaw 2022-13, a bylaw to amend the Fees and Charges Bylaw to reduce the bagged meter fee with respect to pop-up patios for the 2022 season, be brought forward for consideration under the bylaw process.

**2. Mobile Food Vendor Overnight Parking**

The Mobile Food Vendor Program supports food truck vending within the Downtown core. Seven public sites have been designated at three locations in the City, and Vendors are only permitted on sites that have been allocated to them through a lottery process. At two of the locations, the Vendors are permitted to leave their vehicles in place overnight, but overnight parking is prohibited at the City Parkade site at Third Avenue and Steele Street.

Granting permission for overnight parking at designated sites in public parkades will help balance the City's ability to manage competing vendors and ensure that rights-of-way and parkades are used for their intended purposes while making better use of them for community activity.

Amendments to the Parkade Bylaw and to the Lease, Encroachment and Property Use Policy are required to permit overnight parking in the parkade. The proposed amendments will not change the permitted hours of operation for food vendors.

**The recommendation of the Development Services Committee is**

THAT Bylaw 2022-14, a bylaw to amend the Parkade Bylaw to permit overnight parking for authorized food vendors, be brought forward for consideration under the bylaw process; and

THAT section 2.10.33 of the Lease, Encroachment and Property Use Policy is hereby deleted and replaced by a new section 2.10.33 that reads as follows:

“2.10.33 Mobile food vendors shall cease operating by 11:00 p.m. but may be allowed overnight parking of vending units.”

**3. Pop-Up Patio Program – Additional Issues**

Committee members discussed additional options to encourage participation in the Pop-Up Patio Program, including the concept of initiating a pilot project involving the closure of one lane of a section of one Downtown street. It was noted that the requirements for a six metre separation between the patio and adjacent traffic and for a minimum of five million dollars in liability insurance are both onerous conditions. Committee members agreed to direct Administration to review these specific issues.

**The recommendation of the Development Services Committee is**

THAT Administration is hereby directed to review the Lease, Encroachment and Property Use Policy with respect to the six metre separation and liability insurance requirements to see if changes can be made to increase participation in the Pop-Up Patio Program.

## Minutes of the meeting of the City Operations Committee

<b>Date</b>	March 7, 2022	2022-05

---

Your Worship, the City Operations Committee respectfully submits the following report:

### **1. Range Road and Two Mile Hill Intersection Upgrades Project**

A project to upgrade the intersection at Two Mile Hill and Range Road is included in the 2022 to 2025 Capital Expenditure Program. The Government of Yukon has indicated an interest in expediting upgrades to the Alaska Highway/Hamilton Boulevard intersection in order to integrate and coordinate with the City's project at the Range Road/Two Mile Hill Intersection.

The proposed change in scope and project delivery will allow for a comprehensive re-evaluation of transportation planning for both intersections. From a transportation planning perspective this will be beneficial because the two intersections functionally operate together and therefore the design of one intersection has significant implications on the other. A combined project will allow for an integrated design approach for both intersections that considers and meets the functional transportation needs for all road users, interested parties, and both governments.

Administration recommends that Council consider a proposed change in project scope and project delivery to increase the project area, re-evaluate transportation functional

planning, and manage the initiative as a single expanded project. The proposed change will impact project costs and may also impact project schedules. If approved, the next steps will be for Administration to develop an agreement with the Government of Yukon that will inform a future request for a budget increase.

**The recommendation of the City Operations Committee is**

THAT Administration is hereby authorized to change the scope and delivery for the Range Road and Two Mile Hill Intersection Upgrades project; and

THAT Administration is authorized to engage with the Government of Yukon to develop an agreement to expand the scope of the Range Road and Two Mile Hill Road Intersection Upgrades project.

### **1. Grant to Blood Ties Four Directions Centre**

A donation to the Blood Ties Four Directions Centre will provide support to the community through this organization. Sufficient funds are available in the Council donations account.

### **The recommendation of the Public Health and Safety Committee is**

**2. Update on Property Crime Issues – For Information Only**

In response to a query from a Committee member, the Mayor provided an update on measures being taken to address the issues of property crime and vandalism. In conjunction with the RCMP and the Chamber of Commerce, the City is committed to working together to find measures to reduce crime and increase public safety.

Administration advised that a community scan has been conducted to find out what other communities are doing to reduce property crime, and the message we have received is that a whole community approach is the most effective.
