

***CITY OF WHITEHORSE
HERITAGE REGISTRY***

City of Whitehorse
June 2011

Introduction

The City of Whitehorse Heritage Registry is the official listing of all of the Heritage Resources within Whitehorse determined through the evaluation criteria established in **Heritage Bylaw 2002-10**.

“Heritage Resource” is defined in Heritage Bylaw 2002-10 means a historic site, historic object or any work or assembly of works that is on the Heritage Registry

A Heritage Resource from the Heritage Registry becomes a **“Municipal Historic Site”** when designated through bylaw by City Council.

☞ Guide to the Heritage Registry

Score – Most of the Heritage Resources on the Registry have been scored out of 15 using the following evaluation criteria: Architectural History; Cultural History; Context, Integrity; and Age.

Historic Neighbourhood – The “HN” label identifies resources that contribute additional heritage value to resources in the vicinity of the Heritage Resource. It is recognized that heritage resources located in clusters contribute more meaning than resources in solitude. The Heritage Registry identifies what neighbourhood or group the resource is affiliated with.

Common name- Each resource is has been labelled with a name for easy reference. Each name is associated with a significant person, group, institution, event or activity of historical significance to the city.

General Location – Generally the municipal address if available, or the general area in which the resource can be found.

Owner – Indicates whether a resource is owned privately or by a government.

For more information on the Heritage Registry, please contact Adam Humphrey, Planner, at 393-8407 or adam.humphrey@whitehorse.ca.

HERITAGE RESOURCES
